

Presenting with Confidence (includes Presenting Virtually)

Many of us find presentations nerve-racking. We also know how difficult it can be to keep the audience captivated and engaged.

This course will help to dramatically improve presentation skills. Learn to plan, structure and use delivery techniques that hold audience interest and allow them to easily follow the presenter's line of thought. It also includes four proven strategies to deal with nerves, giving reassurance and confidence.

You will also learn how to adapt your presentation to the virtual world of Zoom, Teams etc.
